

eSys-SVC3

Robust and high performance ASIL-C ECU

We live electronics!

eSys-SVC3

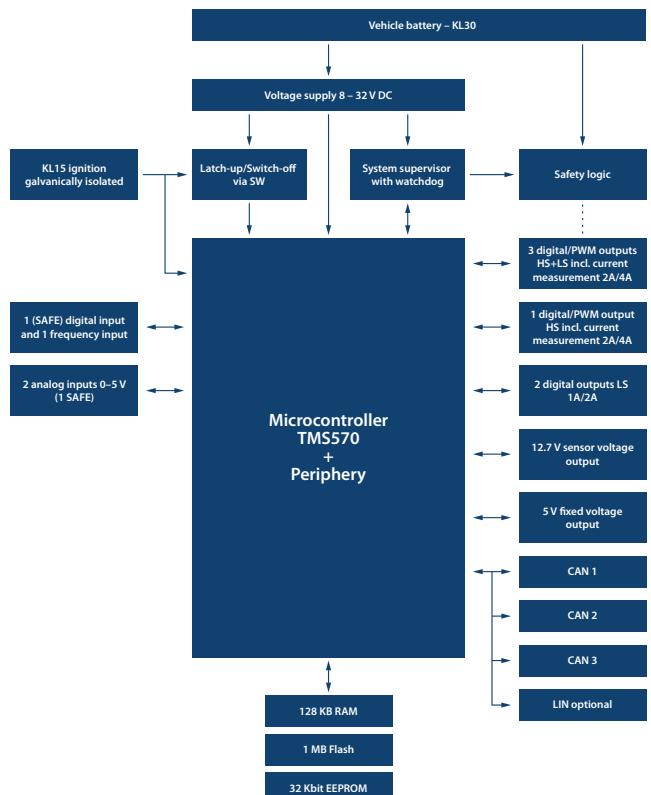

eSys-SVC3 is a powerful electronic control unit for safety-related applications up to ASIL-C. A rugged construction and a wide range of applications facilitate an optimal use in mobile machines. For this, three CAN, an optional LIN interface and up to 15 inputs and outputs with various diagnostic features are available.

Key Features

ASIL-C	Scalable safety controllers up to ASIL-C (acc. to ISO 26262)
32 bit	High performance 32-bit Dual-Core Microcontroller
CAN	3x CAN interface acc. to ISO 11898
lin	1x LIN optional
⊕ ⊖	Number of IOs: 4 inputs, 11 outputs
	AUTOSAR compliant
	Robust aluminium housing with automotive connectors

Block Diagram

Technical Data

CPU	
CPU	32-bit microcontroller dual-core, 160 MHz
RAM	128 KB internal
Memory	1 MB internal

Interfaces & Inputs/Outputs	
CAN	3x CAN interface accord. to ISO 11898 and CAN 2.0 B
LIN	1x optional
Analog inputs, Pulldown 0–5 V and 0–32 V	2x (1x SAFE); 0–5 V
Digital inputs or RPM inputs	1x (SAFE)
Pulse inputs	1x
PWM/HSS/LSS outputs	4x (3x SAFE) current range highside 0 to 4.0 A, pulse frequency 0; 50 up to 500 Hz 5x (3x SAFE) current range lowside 0 bis 4,0A
Fixed voltage output	1x 5 V, stabilized supply voltage, short-circuit proof
Sensor voltage output	1x 12.7 V (optional)

Housing	
Plug	154-pin connector
Housing	IP68 (opt. IP6K9K), die-cast aluminium
Dimensions (lxwxh)	approx. 170 mm × 214 mm × 34 mm
Operating temperature	–40°C to +85°C housing temperature
Storage temperature	–40°C to +90°C housing temperature

Supply Voltage	
Supply voltage	8–32 V (12 V or 24 V board version)
Power consumption	Quiescent current approx. 2.8 mA at 28.5 V, total current up to 41 A
